THE LIGHTNING STRIKES HARDEST IN "PADDY" DIVVER'S DOMAIN-WILD SCURRYING AMONG THE FRIGHTENED INSPECTORS-WHEEL.

ER H. PECKHAM AND JOHN W. GOFF TELL OF TAMMANY'S RASCALITY AND BRUTAL

Inspector McLaughlin and the detectives at Police Headquarters seem determined to get hold of the big batch of election officials and others against whom District-Attorney Nicoll has launched his hundred indictments. Many of the dishonest inspectors and poll clerks who of the dishonest inspectors and poil clerks who deprived the honest voter of his right, having reason to know or to think that their names were on the black list, promptly left the city. Others are hiding in the purlicus of the Fourth, the Seventh and the Eighth wards, doubling and dodging like frightened foxes to slip from under the hand of the detectives. Nevertheless, in less than twenty-four hours the detectives in less than twenty-four hours the detectives above reproach. Of course the watcher, trying to this day, occasionally came into collision with in less than twenty-four hours the detectives have succeeded in netting fifty-six out of the total number of prisoners called for in the indictment. Of these, forty-four were taken to Mulberry-st, on Saturday; the remaining twelve were found yesterday.

It has been noticed that nearly all the officials arrested so far are young men, barely emerged from boyhood, without money, friends, or influence. No politician with any pretensions to the slightest degree of prominence is to be found among them. True, it was ascerted that State Senator Timothy D., or "Dry Dollar" Sullivan, as he is called, would be called upon to answer for his share in the transaction, while many persons were surprised to find that Michael Lally, ex-bridge policeman and thug, whose Tammany "pull" has so far saved him from punishment for various acts of brutal violence, was not included in the batch of victims. It is known that Lally was extremely

From an early hour of the morning until late last night detectives were scouring the city and bringing in the prisoners just as fast as they could find them. The prisoners, with one exception, are charged with making a false statement of the result of the canvass of the ballots cast at the election. m early in the day there had been a perover the East Side there was a wild scurrying in all directions to secure ball for the afflicted ones. All through the afternoon the corridors of the building were peopled by a busy succession of bondsmen recruited from the Tammany hosts. It had been noticed that the majority of the prisoners came from the Hd Assembly District, over which Police Justice "Paddy" Divver holds supreme power. No one was, therefore, surprised when, at about 2 o'clock in the afternoon, the justice himself, in all the glory of his big diamond, big mustache and big cigar, strutted into the office of Inspector McLaughlin and remained there for more than two hours. It was said that he was in consultation with Superintendent Byrnes, but when the Superintendent was approached by the reporters he smiled and sweetly said:

"Justice Divver—dear me—I'm sure I don't

Justice Divver strutted out a minute later.

"Nothing more than a personal call, I assure
you," he said; "just been wishing Byrnes a
merry Christmas."

"Is that who was structure has been wishing byrnes a

merry Christmas."

"Is that why you spent two hours or so inside his office?" said the reporter.

Justice Divver turned sharply.

"We were merely wondering why so many of your men in the IId Assembly District were arrested, while those in the IIId, except in a few cases, remained at liberty" continued the reporter. "The reason for the discrimination might be found somewhere in the high councils of Tammany Hall. Such things have been, you know."

"It looks that way," said the Justice, "but I don't know. I really cannot tell why these men have been arrested, except for the reason given in the warrant."

in the warrant."

Early in the evening Judge Martine arrived at headquarters and accepted bail for Kaffenberg, Michael, Meegan, Collins, Murray, Keenan, Burlinghof and Kirk. The rest of the prisoners will spend their Christmas in the Tombs.

The history of the movement which has started this desperate fight against Tammany fraud is clearly told by the men who led it and, in the light of Mr. Croker's recent deliverances. it makes peculiarly interesting reading. Wheeler H. Peckham, who was chairman of the Committee of Fifty appointed for the purpose of Maynard, yesterday gave an account of the pro-

ceedings which led to the wholesale indictment. "The Committee of Fifty was appointed by the big Anti-Maynard meeting in Cooper Union," he said, in the course of a talk with a reporter. "and in this the Bar Association was not officially concerned. After the election, on a report mittee of which Francis M. Scott was chairman, a second sub-committee of nine, of which I was chairman, was appointed to take active measures for the prosecution of the offenders. The evidences of wholesale corruptions and perjury were as plain as a dead horse in front of a man's door. John W. Goff, ex-Assistant District-Attorney, was retained by the law committee of the Bar Association to prepare these cases for presentation to the Grand Jury."

The story is at this point taken up by Mr. Goff, who throws a few striking and picturesque side lights on the wonderful results achieved by Tammany Hall in promotion of the purity of elections.

of elections.

"The result of this election," said Mr. Goff yesterday, "evinces the value of independent watchers in securing purity of election. If all the stories of flagrant dishonesty perpetrated by Tammany Hall at the polls in the last election could be printed, one would be able to fill ten copies of a newspaper. In one Assembly District alone, where the total registration of votes was 7,000, more than 13,000 votes were cast. In respect of dishonesty, it is impossible to make any discriminations between the inspectors on either side, for in all the robbery that was perpetrated, the Republican inspectors fully acquiesced, and were fully as guilty as their political opponents. In many cases, the private citizen who had the courage to protest

do his duty, occasionally came into collision with the Tammany pollecmen. An instance of what may be expected when a patrolman tries to do his duty was furnished in a case uptown. A police-man removed one of the Tammany heelers from a place inside the rail, where he had no business to be. This heeler complained to the Tammany captain of the district, who "saw" the police cap-tain. In forty-eight hours from that time the patrolman had been transferred to an obscure uptown precipet."

BULLDOZING FROM FIRST TO LAST.

"Another feature of the Tammany method was seen in beautiful force when the poll closed and the counting began. Then the Tammany watchers and those who were there to support them with the fist, if necessary, crowded around the tables, hustling and elbowing our watchers to the rear, so that it would be impossible for them to witness the work. Individual policemen, anxious to be honest, were afraid to act in defence of the right, knowing well that they would be visited with censure and punishment. "To call this an election is wrong. It was o call this an election is wrong. It was ly a registration of the will of Tammany

"Under the system of repeating carried on in a barefaced manner," said Mr. Goff, "4,500 votes were illegally and fraudulently cast and credited to the man who was snowed under by 100,000 majority. In many election districts no caths at all were administered, and at 4 o'clock, the Tammany captain who held the lists of registered voters in the district told the inspector to keep the polls open after the hour of closing, and sent out runners to bring in from the bowaves of the city any tattered transp who was s the situation: ways of the city any tattered tramp who was lling to enroll himself as a voter." buto Kempner said: This is only what might have been expected

One of the worst cases of smallpox yet reported to the Health Board is that of Louis Ridde, forty-three years old, secretary of the Gas Machine Com-pany, which has its offices in the Produce Exchange Building. Mr. Ridde now lies dead in the Riverside Hospital. Just where or how Mr. Ridde contracted the disease will always remain a reverse. the disease will always remain a mystery. His duties frequently carried him to the Western and the disease who duties frequently carried him to the Western and duties frequently carried him to the Western and Southern parts of the country, and it was only a few days ago that he returned from his last tour, feeling tired and faint and sick. He rapidly grew worse, but it was not until Saturday morning that the actual symptoms of smallpox developed, and then it was seen that the disease had reached the most malignant stage.

When the inspectors from the Bureau of Contagious Diseases reached his house, No. 717 Lexingtion-ave, the patient was whiley before and his one of the worst cases he had ever seen, and his opinion was verified when Mr. Ridde died on Saturday night.

Mr. Ridde's wife is away from her home. The house has been thoroughly fumigated and will be put under quarantine. There seems to be little doubt that Mr. Ridde received the contagion somewhere on his travels.

RADICAL MEASURES NECESSARY.

The anti-machine party represents no ephemeral effort. It is made up of men who have become absolutely convinced that there is no hope of ridding this city of the Tammany gang that now infests it so long as the Republican organization is practically controlled by the Wigwam. Before anything can be done in the way of beating Tammany, the Tammany-Republican leadership must be abolished. To effect this, radical steps are necessary. No reorganization will suffice. The utter futility of all such halfway measures has been sufficiently demonstrated. New methods are desirable, but new men, it holds, are imperative. The Philadelphia plan it favors, but not in the hands of the old machine leaders. Any plan the execution of which would be in from the Committee of Thirty. That body was appointed to investigate the bad work, the inorganization. The result of its inquiry after fraud was a practical vindication of all concerned; its plan of reorganization was such as to commend it to every district boss in the city. cause, after due reflection, they had decided that so long as the new order of things was to be undertaken by themselves and their henchmen they could, thanks to their old allies of the Wigwam, rest in perfect confidence that

they would be returned in a blaze of glory. Such a deplorable result the Anti-Machine Republicans do not propose to tolerate-at least without a struggle. Instead of trusting the machine by reforming itself to represent fittingly the party, they have cut loose entirely from it and carried out in a sensible, practical way all the best features of the Philadelphia or election district plan. Instead of waiting for the old for each election district. A careful house-tohouse canvass is then begun and carried out until every man opposed to Tammany rule has

THE ENROLMENT BLANKS.

The enrolment is made on blanks bearing this

Provisional Organization.

Anti-Machine Republicans of the City and County
of New-York,

Hendquarters Executive Committee No. 1.122 Broadway, corner of Twenty-fifth-st.
We, the undersigned voters of the — Election
District, —Assembly District, believing that the
present Republican organization in this county fails

present Republican organization in this county falls to represent the party properly, and that the interests of the city and State, as well as the cause of Republicanism in New-York, demand a new organization, do hereby agree to assist in the work of reforming the party lines to the best of our publics.

These blanks, when folded up, are sent to the Assembly district leaders or committee and forwarded to headquarters, where after examination and comparison with "The City Record" they are verified by inspectors from the Central and Constable John Murray entered a Hungarian boarding-house shortly after midnight to arrest a handed in. How effective this work is may be handed in. How effective this work is may be judged from a few illustrations taken at random from the returns that have been sent in from THE 11D ASSEMBLY DISTRICT.

The interests of the Republican party in the Ild Assembly District are supposed to be looked after by Dennis Shea. Mr. Shea is an amiable, indolent gentleman, who carries about 250 pounds or more of solid adipose tissue. He is one of the bright and shining lights of the County Committee, and a stalwart supporter of the Patterson-Gibbs-Simpson régime. He is a fair representative of the Republican leadership of the party here at present, a little better than the worst of them, and personally the most agreeable of all. Like the rest, he has become sud-Perth Amboy, N. J., Dec. 21.-James S. Johnson, denly profoundly convinced that, after all, the Philadelphia plan of organization is the one to adopt, and that the existing County Comm ttee is just the body to put it into execution.
